Marine Division

Focus is the formula.

Research Solutions has more than 40 years of experience developing products designed to meet the demanding requirements of the rugged marine industry. More than a distributor, we can effectively function as an extension of your own developmental group, uniquely equipped to meet your needs.

Products are available in drums, totes, or bulk quantities.

Confined Space Cleaners

- Combines chemistry with the latest technology for today's production demands
- Developed on the yard with the experts who know the business best—shipbuilders themselves

- Ideal for easy application as a spray, dip or wipe

Paint Thinners

- Designed for thinning or strictly clean up
- Options include traditional or new HAPs-free, low-VOC formulas

Bilge Cleaners

- Available as traditional caustic systems or biodegradable for ease of disposal
- Designed to remove the most difficult of contaminants from painted and non-painted surfaces
- Effective on stubborn grease build up, oils/black oil and chemical residues

Equipment

- Oil-Water Separators
- Skimmers

A black and white photograph of a large ship's bow, likely a cargo ship, docked at a pier. The ship's bow is reflected in the calm water in the foreground. In the background, industrial structures, including cranes and scaffolding, are visible against a hazy sky. The overall scene is industrial and maritime.

With clear focus on our core values—
integrity, quality, stewardship, service
